advised that a request had been made through liaison channels from
Department of State for [] assistance in fulfilling a request from
Senator Fulbright to USIA for study of overseas reactions to American

position was taken that we would be unable to assist in the absence
of a written request from the Director of USIA.

25X1 11. [] Met with Ed Braswell, Chief Counsel, Senate Armed Services Committee, and reviewed with him topics to be covered in the Director's briefing of the combined CIA Subcommittees tomorrow.

Mr. Braswell also advised me of the caucus of the Republican Committee members and the position taken by Senator Margaret Chase Smith (R., Maine) which resulted in her withdrawal from membership of all Subcommittees in the interest of permitting some of the newer Republican members to serve in more senior positions on these Subcommittees. It would appear, however, that as a practical matter, Senator Smith will be invited to all Subcommittee meetings and for all intents and purposes can be considered an "ex-officio" member of every Subcommittee.

25X1 12. [] At his request, I met with James Gehrig, Chief Counsel, Senate Space Committee, who said he had been queried by Senator Len B. Jordan (R., Idaho) on some of the details involved in the nuclear Non-Proliferation Treaty. Senator Jordan is apparently interested in knowing how any cheating by the Soviets can be detected under the terms of this treaty. Gehrig seemed rather confused by this and tended to jumble the Test Ban Treaty with the Non-Proliferation Treaty in this regard. Gehrig wanted my advice as to who would be in the best position to discuss this with Senator Jordan. I told Gehrig my offhand reaction was that the State Department or ACDA could be responsive in this field but that I would check on it and be in touch with him.

1. [] Following earlier conversation, I called Mr. Thad Murray, Administrative Assistant to Senator William Spong (D., Va.) to say that we had no evidence that the Soviet fishing vessels off the Virginia coast were especially equipped for, or primarily engaged in, technical intelligence collection. I said that presumably certain personnel on these vessels had been briefed on intelligence "targets of opportunity," and that crews of such vessels often include regular naval personnel, but that from present indications this fleet was primarily engaged in fishing operations.

2. [] Mr. Frank Slatinshek, Counsel, House Armed Services Committee, visited the Agency and was briefed during the day on the Agency retirement system, personnel policies, Agency organization structure and projected Agency needs for personnel legislation. [] In connection with the State Department request that we approve transmittal of NIS's to the Foreign Affairs Committee, [] of DDI, indicated their agreement with our position against this particularly since this suggestion originated in the State Department. 9. [] Met with Mr. Robert Michaels, on the staff of the House Appropriations Committee, and discussed lightly the request of the Office of the Secretary of Defense representatives that [] OSR, be authorized to brief the Independent Offices of the Appropriations Subcommittee on Soviet civil defense. Mr. Michaels advised that this matter should be cleared with the Chairman and he would be pleased to raise it with him on his return next week. He has no doubt, however, of the Chairman's opposition of Agency utilization of personnel for such briefings.

10. [] Met with Senator Jack Miller (R., Iowa) concerning the selective service case of [] OSI. The Senator was most helpful in his remarks and asked that I meet with him further on this matter after his return to the city on Friday. (See Memorandum for the Record.)

[] [] OBGI/DDI, called to say that Al Haynes, State Department, had been in touch with their office and indicated that the Latin American Subcommittee of the House Committee on Foreign Affairs would be interested in receiving NIS's in the future. Haynes was exploring this with [] I told [] that this type of material had never been provided to the Congress specifically on a continuing basis and suggested that he get as many of the facts as were available from Mr. Haynes so we could focus on the situation. I asked him particularly if he could determine whether the specific reference to NIS's had been made by someone on the Hill or whether this was a suggestion by someone in the State Department.
